

## Fiat 500 La Prima by [Bocelli](#)

Fancy a new environmentally-friendly car? Thinking about going electric? Don't like the look of the boring, boxy, electric vehicles on the road? You're not alone!

Take a look at the latest ***Fiat 500 La Prima by [Bocelli](#)*** then! Wow!

It's the electric city car of the future based on the iconic 1957 model. It comes as a [hatchback or a convertible](#) and is available in six [colours](#). The Prima has a top tempo of 93mph and can reach 0-60mph in 8.7 seconds. Its charging is super fast – just five minutes can give you a range of thirty miles, and 199 on a full charge.

For all music lovers out there, you'll be seriously impressed by the [Infotainment system](#). Engineered by JBL and mastered by Bocelli, you can choose from [four virtual venues](#) to listen to your favourite music and podcasts - My Music Room, My Recording Studio, The Verdi Opera House, and My Open Air Arena, what's not to love? And it drives like a song!

What's more, the Infotainment system has a 10.25" display with ultra-fast bluetooth pairing and an integrated navigation platform for up-to-the minute traffic information. You'll wonder why you never considered it before!
