### **Cats are for life, not just a pandemic: Adopt a cat today.**

At *Cats' Protection Shelter* we have many cats desperately waiting for new homes.

Many were abandoned by their owners as soon as the pandemic finished.

Come along to our *Cats' Protection Shelter* **open day on Saturday 26<sup>th</sup> February 2023** and meet our friendly felines.

Mrs Taylor, a pensioner from Somerset, adopted a cat last year and hasn't looked back, "*I was so lonely before I got Tippy from Cats' Protection Shelter. We are the best of friends, and my life's changed forever. The staff at the shelter were so supportive.*" In your cat adoption package, we'll give you expertly tailored advice on how to choose your cat as well as advice on how to look after your new feline friend. This package includes:

- A full cat health check
- Vaccinations against cat flu
- All cats are neutered.

Even if you cannot adopt a cat, you can donate and support the work we are doing to care for these cats and kittens. To arrange a visit or to donate contact

[CatsProtectionShelter@gmail.com](mailto:CatsProtectionShelter@gmail.com).

Give a cat the life it deserves.
